

JANET SHRIMPTON

Born in 1964 in Taplow, near Windsor, Royal Berkshire, Janet is rapidly building a reputation and market for her serenely delicate and atmospheric floral landscapes. In her words, *“My flower and landscape paintings are inspired by eastern art with an interest in the surface quality created by using various mediums on gesso panels (similar to plaster and used for icon and fresco paintings). Initially working from a photograph or drawing, my paintings often develop into a semi-abstract image triggered by my imagination and a spontaneous play of mark-making. The paint effect and patterns in the gesso along with scraping back layers to reveal different colours are all part of the process and guide the work as the painting goes along. I try to create something of the quality of ancient frescos and distressed walls which have a nostalgic and timeless effect.”*

Represented by Carina Haslam (CHA) since September 2012, Janet has regularly sold out all her work at the AAF in London and Bristol and is in high demand throughout the UK. CHA were particularly pleased to sell two large works by Shrimpton at the Saatchi Gallery (Strarta Art Fair) in October 2013 to USA collectors based in New York City.
